

Vocabulary Index (Chinese-English)

The Chinese-English index is alphabetized according to *pinyin*. Words that begin with the same Chinese character are first grouped together. Homonyms appear in the order of their tonal pronunciation (i.e., first tones first, second tones second, third tones third, fourth tones fourth, and neutral tones last). Pinyin in parentheses shows pronunciation of the characters before tone change. Proper nouns are shown in green.

Traditional	Simplified	Pinyin	Part of Speech	English	Lesson
